

CHAPTER 7

RECOMMENDED PLAN

RECOMMENDED PLAN

A general description of recommended system improvement projects is provided in this chapter. The recommended improvement plan is divided into the following categories:

- Short-term Projects (FFY 2011-2015), and
- Long-term and Illustrative Projects (FFY 2016-2035)

Recommended projects are further divided into the following sub categories:

- Local Projects;
- New York State Department of Transportation Projects;
- Ulster County Area Transit Projects;
- City of Kingston Citibus Projects;
- New York State Thruway Authority Projects;
- New York State Bridge Authority Projects; and
- Multicounty NYSDOT Projects

The Recommended Plan of projects identified in the following pages is directly linked to the UCTC's FFY 2011-2015 Transportation Improvement Program (TIP) Update. The Transportation Improvement Program includes a priority list of proposed federal and State supported projects and strategies to be implemented after the initial adoption of the Transportation Improvement Program.

The TIP may also include illustrative projects for planning purposes. Illustrative projects are additional projects that are included in the approved Transportation Improvement Program, which may be eligible for federal aid if reasonable additional resources beyond those identified in Chapter 6 (Financial Plan) become available. Illustrative projects do not burden a fiscally constrained transportation improvement program.

Local projects identified in Table 7-1 and 7-2 either pre-date the MPO's existence or were selected using the UCTC's TIP project evaluation and selection process.

Projects identified in Tables 7-3 and 7-4 were selected by NYSDOT based on needs and maintenance criteria established by NYSDOT.

Transit projects identified in Tables 7-5 and 7-6 are determined by UCAT and Citibus based on needs and Federal Transit Administration requirements.

NYS Thruway and Bridge Authority projects identified in Tables 7-7, 7-8 and 7-9 are determined by needs and maintenance criteria established by each agency. The NYS Thruway and Bridge Authorities do not program federal funds on the UCTC TIP.

Table 7-10 and 7-11 identify NYSDOT-sponsored short-term and long-term multicounty projects which overlap multiple counties. NYSDOT establishes the multicounty list of

projects for placement on the TIP based on established NYSDOT maintenance criteria and needs.

Table 7-1: Recommended Short-Term (2011-2015) Local Projects

PIN	Agency	Project Type	Project Description	Project Total
805111	County	Recon	County Route 7 & 8 - Route 299 Roadway Repaving. Towns of New Paltz	0.679
